Sustainable Development Goals

At Rio+20 - the UN Conference on Sustainable Development - countries agreed to establish an intergovernmental process to develop a set of "action-oriented, concise and easy to communicate" sustainable development goals (SDGs) to help drive the implementation of sustainable development. The Rio+20 outcome document, *The Future We Want*, also calls for the goals to be coherent with the United Nations development agenda beyond 2015. A 30-member *Open Working Group (OWG)* of the General Assembly is tasked with preparing the SDGs.
